

WNTC Back On Air Starting Monday

Starting Monday, March 7, WNTC will be on the air from 7:30 to 9:30 A.M. from Mondays through Saturdays.

The program, entitled "Morning Bandstand," will consist of music, school events of the week, time and weather reports, and other news of interest to the listening public.

This broadcast will mark the station's return to the air after a long absence, due to the reconstruction of its studios. It has been announced by Station Manager Herman Steinborn that the station will resume its full broadcasting schedule late in March.
